LIFEGUARD EMERGENCY RESPONSE COMPETITIONS

SCORE SHEET PACKAGE

BRANCH RESOURCE FOR SANCTIONED LIFEGUARD EMERGENCY
RESPONSE COMPETITION

Priority Assessment Overall Score Sheet

Team: _____

Judge: _____

Verified by: _____

TEAMWORK - Circle one (1) - Max 10 points	
Worked very well as a team	10
Worked well as a team	7
Worked somewhat well as a team	4
Team work was not evident	0

TEAM CAPTAIN LEADING SCENARIO WITH CLEAR ACTION PLAN - Circle one (1) - Max 10 points	
Leadership skills very well exhibited	10
Leadership skills well exhibited	7
Leadership skills somewhat well exhibited	4
Leadership skills were not evident	0

ONE TEAM MEMBER OUT OF WATER - Circle one (1) - Max 10 points	
Out of water entire time	10
Out of water most of the time	7
Out of water some of the time	4
Always in the water	0

LOCATION OF VICTIM - Circle one (1) - Max 10 points	
All victims located	10
Most victims located	7
Some victims located	4
No victims located	0

SAFE MOVEMENT ON THE DECK AND/OR IN WATER - Circle one (1) - Max 10 points	
Movement on deck and/or in water was safe	10
Movement on deck and/or in water was mostly safe	7
Movement on deck and/or in water was somewhat safe	4
Unsafe movement on deck and/or in water	0

SAFE ENTRY AND EXIT - Circle one (1) - Max 10 points	
Entries and exits used were safe	10
Entries and exits used were mostly safe	7
Entries and exits used were somewhat safe	4
Unsafe entries and exits	0

GATHERING, SAFE USE AND MANAGEMENT OF EQUIPMENT - Circle one (1) - Max 10 points	
Available equipment was safely used and managed	10
Available equipment was mostly well used and managed	7
Available equipment was somewhat well used and managed	4
Unsafe use of equipment	0

EFFECTIVE IDENTIFICATION AND MANAGEMENT OF HAZARDS - Circle one (1) - Max 10 points	
Hazards were all effectively identified and managed safely	10
Hazards were mostly effectively identified and managed safely	7
Hazards were somewhat effectively identified and managed safely	4
Hazards were not identified or managed	0

CONCERN FOR SAFETY OF SELF AND OTHERS - Circle one (1) - Max 10 points	
Concern for self and others demonstrated throughout	10
Concern for self and others demonstrated often	7
Concern for self and other demonstrated occasionally	4
Disregard for safety of self or others	0

COMMUNICATION WITH TEAM MEMBERS - Circle one (1) - Max 10 points	
Effective team communication throughout	10
Team communication was mostly effective	7
Team communication was somewhat effective	4
Ineffective communication within team	0

Total Score: _____ /100

Priority Assessment Individual Victim Score Sheet

Team: _____

Victim: _____

Judge: _____

Verified by: _____

Priority Level (circle victim priority level) **1** **2** **3**

Speed of Recognition and Response (Water Rescue only)		
<i>Circle One (1) - Max 10 points</i>		
Victim recognized and response started in	Under 30 sec.	10
	Under 60 sec.	7
	Under 90 sec.	4
Victim not recognized		0

Removal	
<i>Circle one (1) - Max 10 points</i>	
Victim performs self removal	10
Rescuer performs removal with team member or bystander	7
Rescuer removes victim without assistance	4
Victim was not removed	0

Approach and Rescue	
<i>Circle all criteria met by rescuer - Max 10 points</i>	
Rescuer avoids hazards	2
Rescuer is not grabbed by victim during rescue	2
Rescuer uses aid or talks victim in	2
Condition of victim identified	2
Cause of injury is identified	2

Victim Care and Follow-up	
<i>Circle all criteria met by rescuer - Max 10 points</i>	
Victims ABCs maintained throughout rescue	2
Rescuer maintains communication with victim	2
Victim placed in a comfortable position once removed	2
Victim receives treatment for injuries	2
EMS called when required	2

Rescue Technique	
<i>Circle one (1) - Max 10 points</i>	
No contact rescue from pool deck	10
No contact rescue from water	7
Contact rescue	4
Rescue not attempted	0

Priority Multiplication Factor		
Priority	Victim Types	Raw Score Multiplier
1	<ul style="list-style-type: none"> • Weak swimmer • Other mobile victims 	X 1.50
2	<ul style="list-style-type: none"> • Non-swimmer • Injured swimmer 	X 1.25
3	<ul style="list-style-type: none"> • Unconscious victim • Non-breathing • Submerged swimmer 	X 1.00

Total score = Raw Score X Raw Score Multiplier

Raw Score: _____ /50

Total Score: _____

Water Rescue and First Aid Overall Score Sheet

Team: _____

Judge: _____

Verified by: _____

Supervision/Scene Management <i>Circle all criteria met by all team members - Max 6 points</i>	
Positioning allows team to observe all areas of the competition arena	2
Coverage maintained during incidents	2
Scanning or assessment of environment uses consistent pattern	1
Scanning or assessment of environment uses continual head movement	1

Emergency Response <i>Circle all criteria met by all team members - Max 6 points</i>	
All incidents recognized and responded to	2
Immediate and accurate communication with other lifeguards or first aiders	2
Effective crowd control	1
Effective management of victims	1

Safety <i>Circle all criteria met by all team members - Max 4 points</i>	
Demonstrates concern for personal safety	2
Demonstrates concern for safety of patrons and victims	2

Professionalism <i>Circle all criteria met by all team members - Max 4 points</i>	
Demonstrates professionalism	2
Displays confidence and calmness during incidents	2

Total Score: _____ /20

Telephone Score Sheet

Team: _____

Judge: _____

Verified by: _____

	Victim #1	Victim #2	Victim #3	Victim #4
Call to Emergency Medical Services <i>Circle all criteria met by the rescuer - Max 7 points</i>				
Requests appropriate emergency service	1	1	1	1
Communicates level of consciousness	1	1	1	1
Communicates whether victim is breathing or non-breathing	1	1	1	1
Communicates injuries / illness	2	2	2	2
Communicates and confirms location and meeting point	1	1	1	1
Communicates and confirms call back phone number	1	1	1	1

	Victim #1	Victim #2	Victim #3	Victim #4	
Time to Activation of Emergency Medical Services (EMS) <i>Circle One (1) - max 8 points</i>					
<i>NOTE: Time measured from time specific incident starts (e.g. If victim 1 incident occurs at 1 minute into the scenario and EMS activated at 3 minutes, the time to activation of EMS is 2 minutes)</i>					
Emergency Medical Services (EMS) activated	Under 1 min.	8	8	8	8
	Under 2 min.	6	6	6	6
	Under 3 min	4	4	4	4
	Under 4 min	2	2	2	2
	Over 4 min.	1	1	1	1
Emergency Medical Services (EMS) not activated	0	0	0	0	

	Victim #1	Victim #2	Victim #3	Victim #4
Victim Score Subtotal	/15	/15	/15	/15

Total Score: _____ (sum of victim scores)

Water Rescue and First Aid Scoring Sheet - Major Bleeding (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Rest and direct pressure	9
Apply sterile dressing/bandage	10
Check circulation	1
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Broken/Dislocated Hip (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Immobilization	6
Movement minimized throughout	3
Check distal circulation/sensation	3
Ice applied to injury	3
ABC's maintained and monitored throughout	5
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Pulseless Spinal Injury (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Smooth recovery (rollover if needed)	2
Minimizes movement of spinal column	3
Check distal circulation/sensation	1
Resuscitation administered at earliest possible time	8
Proper resuscitation	6
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Diabetic Emergency (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Monitor and maintain ABC's	3
Recommends victim test blood sugar level	5
Help to self-administer medication or item containing sugar	12
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Chest Pain/ Heart Attack to Pulseless (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1

Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2

Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
ABC's maintained and monitored throughout	5
Victim placed in comfortable position and tight clothing loosened	2
Victim assisted in taking medication	2
Proper resuscitation	7
Resuscitation started as early as possible	4
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2

Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2

Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Head Injury (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
ABC's monitored and maintained throughout	5
Movement minimized throughout	5
Victim placed in and treated in a position of comfort	5
Bandage and apply ice or a cold compress to the injured area	5
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2

Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Airway maintained throughout	5
ABC's monitored and maintained throughout	5
Flush burns with cool, clean water	5
Cover burns with dry, sterile dressing	5
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions (if necessary)	2
Appropriate response to changes in condition (if necessary)	2
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Interaction with teammates was appropriate and effective	1
Interaction with witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Prevention of further injury	1
Appropriate or minimal movement of victim (including removal)	1
Effective use of equipment	1
Use of protective equipment and barrier devices	1

Total Score: _____ /60 (65 for Water Rescue)

Water Rescue and First Aid Scoring Sheet - Unconscious Airway Obstruction (Major Injury)

Team: _____

Judge: _____

Verified by: _____

Speed of Recognition and Response (Water Rescue only) <i>Circle One (1) - Max 5 points</i>		
Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Assess for spinal	1
Level Of Consciousness	2
Airway	2
Breathing	2
Circulation (including check for deadly bleeding)	2
Assessment of primary complaint	2
Treatment <i>Circle all criteria met by the rescuer - Max 21 points</i>	
Airway maintained throughout	5
Administer proper airway obstruction procedure	10
Airway obstruction procedure administered at the earliest possible moment	5
Treat for shock	1

Secondary Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Collects relevant medical information	2
Head-to-toe hands on full body assessment	2
Quality and attention to assessment - full body assessment is thorough (not rushed)	2
Collects personal information	2
Continuing Assessment <i>Circle all criteria met by the rescuer - Max 8 points</i>	
Vital signs monitored	2

Victim recognized and assessed in:	Under 1 min.	5
	Under 2 min. 30 sec.	3
	Under 4 min.	1
Victim not recognized or assessed		0

Rescue Scene Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Check for and management of hazards	1
Determine mechanism of injury	1
Identifies themselves and gets consent to provide treatment	1
Appropriate entry/approach/contact with victim	1
Primary Assessment <i>Circle all criteria met by the rescuer - Max 6 points</i>	
Assess for spinal	1
Level Of Consciousness	1
Airway	1
Breathing	1
Circulation (including check for deadly bleeding)	1
Assessment of primary complaint	1
Treatment <i>Circle all criteria met by the rescuer - Max 11 points</i>	
Movement minimized	3
Immobilization of injury	3
Apply ice or a cold compress to the injured area	2
Check distal circulation/sensation	2
Treat for shock	1

Continuing Assessment <i>Circle all criteria met by the rescuer - Max 4 points</i>	
Vital signs monitored and airway maintained throughout	1
Airway maintained throughout	1
Injuries monitored/assessed throughout	1
Identify changing conditions and appropriate response to change in condition (if necessary)	1
Communication and Victim Care Throughout <i>Circle all criteria met by the rescuer - Max 5 points</i>	
Interaction with teammates and witnesses was appropriate and effective	1
Treatment performed in a logical manner	1
Confidence/calmness in dealing with victim	1
Appropriate or minimal movement of victim (including removal) and prevention of further injury	1
Effective use of equipment, protective equipment and barrier devices	1
